

Company Overview

WorkSmart MD[®] Quick Facts

Founded by Jayson Meyer in 2001, WorkSmart MD was built to fill the service gaps uncovered as a Healthcare Information Technology specialist. Jayson began a national seminar circuit that educated doctors and office managers on the (then) new HIPAA regulations. His teachings culminated as a book published by Prentice Hall in 2002: "HIPAA: The Questions You Didn't Know to Ask."

Recognizing that a great deal of HIPAA compliance could be automated, WorkSmart MD's growing team developed HIPAA Rx[™], a ground breaking software tool to assist practices in implementing HIPAA policies and procedures. Currently over 3,000 medical practices rely on HIPAA Rx[™]. By 2003 WorkSmart MD evolved into providing a variety of medical back-office support services. A special emphasis was placed

Fast Forward to Today

WorkSmart MD empowers small practices with the people, tools, and technology to optimize revenue, streamline compliance, and automate business processes. We help hundreds of doctors and office managers with everything from A/R management to successfully utilizing Electronic Health Record software.

To us, the business of medicine is more than just our job. It's our obsession. We have a proven track record of showing clients outstanding results that directly improve their bottom line and empower them to focus on patients.
